PROMINENT GERMANS ARE VISITING PENSACOLA

DR. OTTO GAGZOW, COMMISSIONER FROM GERMANY TO UNITED STATES, AND OTHERS VIEWED THE HARBOR YESTERDAY.

A party of prominent Germans was in the city yesterday, and to judge from their expressions, they were well pleased, not only with Pensacola, but also with the territory surrounding the city.

The party was composed of Dr. Otto Gagzow, who is the commissioner of agriculture and forestry from the German empire to the United States. He has his headquarters in Chicago, and came to Florida for the purpose of looking over this section, and ascertaining if it is suitable for the location of German immigrants.

Accompanying him were the editor of the Louisville Enquirer, a German publication, of wide circulation, and Walther Schade, special immigration agent of the Louisville and Nashville, who has made many trips to Pensacola during the past few years in the interest of locating German immigrants in this section.

The party came here in the private car of Traffic Manager Compton, of the L. & N., and yesterday afternoon the members were entertained on the harbor by Pensacolians. In addition to the above visitors, R. W. Storrs, of the Funkhouser, Collector Jno. E. Stillman and others from Pensacola composed the party.

CAPTAIN PERRY DETACHED FROM THE NAVY YARD

WILL GO TO WASHINGTON ON MAY 20, AND SERVE AS CHAIRMAN OF THE NAVAL EXAMINING AND RETIRING BOARD—TO BE SUCCEEDED BY CAPTAIN R. M. BERRY.

Captain Thomas Perry, U. S. N., who has been in command of the Pensacola navy yard for the past year, will shortly be detached, orders to this effect having recently been received by him. He will go to Washington and assume charge of his duties as chairman of the naval examining and retiring board, a very important position. These orders, which were recently issued, go into effect on May 20, and it is expected that Captain Perry, who has a large number of friends here, will leave within a few days thereafter to take charge of the new position.

Captain Perry will be succeeded here by Captain R. M. Berry, one of the best known and most popular officers in the navy. The latter will not only be commandant of the yard, but will also have command of the Eighth naval district. He is now serving as commandant of the naval station at Charleston, S. C., and will arrive here on or about May 20, when he will relieve Captain Perry.

While Pensacolians will regret to learn of the departure of Captain Perry, who was formerly commanding officer of the battleship Iowa, they will nevertheless welcome to the city the new commandant of the yard.

Why Suffer From Rheumatism?

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after while the relief became permanent. Mrs. V. H. Leggett, of Yum Yum, Tennessee, U. S. A., writes: "I am a great sufferer from rheumatism all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by all druggists.

ARTILLERYMEN REACH HERE

FOURTH COMPANY FROM JACKSON BARRACKS AT FORT BARRANCAS FOR TARGET PRACTICE.

The Fourth company of Coast artillery, composed of three officers and eighty-nine men, reached the city yesterday afternoon, coming from Jackson barracks, near New Orleans. The men arrived in two special coaches and a baggage car, and were transferred to the army steamer at Commandancia wharf, and taken down to Fort Pickens.

The company was sent here for the purpose of engaging in target practice at Fort Pickens, owing to the fact that the barracks at New Orleans are not properly equipped for the expert training of artillerymen in this branch of the service.

The company will remain here for about ten days or two weeks, when the men will return to their former station. The practice with the modern rifles will begin to-day or tomorrow if the weather is such that it can be done to advantage.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain, as long as possible one's youthful appearance.

It is impossible to do this without retaining a luxuriant growth of hair. The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use it.

Herpicide makes an elegant hair dressing, as well as Dandruff cure.

Accept no substitute—there is none. Sold by leading druggists. For sale by W. A. D'Alemberte, druggist and apothecary, 121 S. Palafox St. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

ANTI-BLISS BOOKS BEING REVISED

MR. BLISS ASKS SOME VERY PERTINENT QUESTIONS WHICH THE PUBLIC WOULD LIKE ANSWERED.

Editor Pensacola Journal: I am reliably informed that the opposition is calling in the little mud-slinging books which were put out, pretending to represent my ideas on labor, and are now putting out a revision of the book with the union label on it.

Will the gentlemen please be kind enough to inform the anxious public why the union label was left off of the first book?

Was it from force of habit, or because they forgot it, or because they were ashamed of it?

There must certainly have been some reason. Please tell us what it was. While these gentlemen are dispensing information the public would like to know why they are calling in the books and putting the union label on at this late date? Did they fail to discover it was not there until I told them?

Will these gentlemen be kind enough to tell the public in what other respect they have "revised" their pamphlet? Please tell us whether some of the lies have been cut out or more lies put in?

Does the new work tell us who the author is and who the printer is? If not, why not?

My original work is copyrighted. Were the author and printer of the opposition document afraid they would have to answer to the courts for illegal use of copyrighted matter?

There is a strict libel law in Florida and perhaps the reason the author and printer left off their names was because they were afraid of going to jail for circulating libellous matter. If it was not this then what was it?

Perhaps they were ashamed of it. If so, that is one redeeming feature of their campaign.

Why do they not let the public know who is doing this dirty work?

Undoubtedly the man who got up the pamphlet knew beyond doubt that I have been a union labor man all my life. The book he pretends to quote from tells him so.

If he knows my record from any source whatever, he knows full well that I have never at any time been opposed to unionism. He knows I have been against lawlessness and that I have contended that arbitration properly safeguarded was a better way to settle labor disputes than by strikes. In short, he knows that I am, and always have been, a loyal union man, but this does not mean that I necessarily have to endorse all the mistakes that labor leaders have made. Now, why does the author avoid all of these facts?

While these gentlemen are explaining will they tell the dear people what connection the whole matter has with the issues of the campaign?

Are they not trying to substitute prejudice for reason in order to get the working people to vote against their best interests?

These are some of the questions it would be well for the Shiners to answer and I suggest they insert them in the "revised" edition.
